

Petershill Partners

Operated by Goldman Sachs Asset Management

Half Year to 30 June 2022 Earnings Results Presentation

PETERSHILL PARTNERS PLC

21 September 2022

Important notice

Petershill Partners plc commenced conditional trading on the London Stock Exchange on 28 September, 2021, on which date the initial acquisition of the portfolio of Partner-firms by the Company was completed. The Company was incorporated in March 2021, but did not trade prior to the end of September 2021. In addition, for completeness and transparency, this document provides results for our interests in the Partner-firms in aggregate, including operating metrics for periods prior to the initial acquisition date, presented as if the Company's assets as at the time of the IPO had been owned by the Company during the historical period presented. The methodology applied here is consistent with that used in the Petershill Partners IPO Prospectus published by the Company on September 28, 2021.

This document has been prepared and issued by and is the sole responsibility of Petershill Partners plc (the "Company"). It comprises the written materials for a presentation concerning the Company.

This document is not for publication, release or distribution to investors in the United States or to "U.S. persons" as defined in Regulation S under the US Securities Act of 1933, as amended, (Regulation S) except to "qualified purchasers" as defined in the US Investment Company Act of 1940, as amended (the Investment Company Act). In addition, this document is not for publication, release or distribution to persons located in or resident of any jurisdiction where to do so would constitute a violation of the relevant laws of such jurisdiction.

This document and its contents are not an offer of securities for sale in the United States. Securities may not be offered or sold in the United States absent registration under the US Securities Act of 1933, as amended, or an exemption therefrom. The Company has not and does not intend to register any securities under the US Securities Act of 1933, as amended, and does not intend to offer any securities to the public in the United States. Any securities of Petershill Partners plc referred to herein have not been and will not be registered under the US Investment Company Act of 1940, as amended, and may not be offered or sold in the United States or to "U.S. persons" (as defined in Regulation S under the US Securities Act of 1933, as amended) other than to "qualified purchasers" as defined in the US Investment Company Act of 1940, as amended. No money, securities or other consideration from any person inside the United States is being solicited and, if sent in response to the information contained in these written materials, will not be accepted. By accepting this document, you represent to being (i) (a) outside the United States and not a "U.S. person" as defined in Regulation S or (b) a "qualified purchaser" as defined in the Investment Company Act, and (ii) not located in or resident of any jurisdiction where to do so would constitute a violation of the relevant laws of such jurisdiction.

The document is being supplied to you solely for your information and for use at the Company's presentation. No information made available to you in connection with the presentation may be passed on, copied, reproduced, in whole or in part, or otherwise disseminated, directly or indirectly, to any other person.

This document does not constitute or form part of any offer or invitation to sell or issue, or any solicitation of any offer to purchase or subscribe for, any securities of the Company nor shall it or any part of it nor the fact of its distribution form the basis of, or be relied on in connection with, any contract, commitment or investment decision in relation thereto and nor does it constitute a recommendation regarding the securities of the Company. The distribution of this document may be restricted by law and persons into whose possession this document comes should inform themselves about, and observe, any such restrictions.

This document speaks as of the date hereof. No reliance may be placed for any purposes whatsoever on the information contained in this document or on its completeness, accuracy or fairness. The Company, its investment manager, administrator and advisers, and each of their respective members, directors, officers and employees are under no obligation to update or keep current information contained in this document, to correct any inaccuracies which may become apparent, or to publicly announce the result of any revision to the statements made herein except where they would be required to do so under applicable law, and any opinions expressed in them are subject to change without notice. No representation or warranty, express or implied, is given by the Company, its investment manager, administrator or any of their respective subsidiary undertakings or affiliates or directors, officers or any other person as to the fairness, accuracy or completeness of the information or opinions contained in this document and no liability whatsoever for any loss howsoever arising from any use of this document or its contents otherwise arising in connection therewith is accepted by any such person in relation to such information.

Forward-Looking Statements

This presentation may contain forward-looking statements that involve substantial risks and uncertainties. You can identify these statements by the use of forward-looking terminology such as "may," "will," "should," "expect," "anticipate," "project," "target," "estimate," "intend," "continue," or "believe" or the negatives thereof or other variations thereon or comparable terminology. You should read statements that contain these words carefully because they discuss our plans, strategies, prospects and expectations concerning the business, operating results, financial condition and other similar matters. These statements represent the Company's belief regarding future events that, by their nature, are uncertain and outside of the Company's control. There are likely to be events in the future, however, that we are not able to predict accurately or control. Any forward-looking statement made by us in this document is based upon information known to the Company on the date of this document and speaks only as of such date. Accordingly, no assurance can be given that any particular expectation will be met and readers are cautioned not to place undue reliance on forward looking statements. Additionally, forward looking statements regarding past trends or activities should not be taken as a representation that such trends or activities will continue in the future. Forward-looking statements speak only as at the date of this document and, other than in accordance with its legal or regulatory obligations, the Company expressly disclaims any obligations or undertaking to release any update of, or revisions to, any forward-looking statements in this document, whether as a result of new information, future events or otherwise. No statement in this document is intended to be a profit forecast. As a result, you are cautioned not to place any undue reliance on such forward-looking statements.

Alternative Performance Measures ("APMs")

Throughout this presentation, reference is made to adjusted measures which the Company considers to be alternative performance measures ("APMs") or Operating Metrics. As part of the initial acquisition of the portfolio of Partner-firms on 28 September 2021, the Company acquired interests in several trusts ("Issuers"), which previously issued \$350m of long term debt with a 5% coupon and a maturity date of 2039. The debt is secured by the rights to the cash flows of certain Partner-firm investments held by the Company and other investments held by the Petershill Funds. Although the Company does not have rights to the cash flows of the collateral that is held by the Petershill Funds, under IFRS, the Company is required to consolidate them. This consolidation results in reflecting all of the assets and liabilities of these entities in the consolidated statement of financial position and all of the income, investment gain and finance cost in the consolidated statement of comprehensive income. However, shareholder returns are only affected by the interests that the Company owns. The APM basis, which presents the financial information on a non IFRS basis, excluding the impact of the assets, liabilities, income, investment gain and finance cost which do not affect shareholder returns, aids shareholders in assessing their investment in the Company. The IFRS and APM basis numbers discussed and presented herein include significant 'unrealised' and non-cash items that include unrealised change in fair value of investments and it should be noted that while permitted, it is not the Company's core strategy to exit or realise these investments. Therefore, management results are also presented excluding the unrealised change in fair value of investments at fair value through profit and loss and related unrealised divestment fee. APMs are used by the Directors and the Operator to analyse the business and financial performance, track the Company's progress and help develop long-term strategic plans and they also reflect more closely the cash flow of the Company. The Directors believe that these APMs are used by investors, analysts and other interested parties as supplemental measures of performance and liquidity. Definitions of alternative performance measures can be found in the glossary within Appendix.

1H 2022 Interim Results – delivering on our potential

Petershill Partners seeks to deliver attractive, recurring, risk-adjusted returns from private markets

Resilient performance in an uncertain environment, underlining high quality recurring revenue model

Strong relative performance and growth from Partner-firms continued into the first half of 2022

Capital returns to shareholders – commencement of \$50 million share buyback programme and payment of \$30m dividend in 1H 2022

Successful delivery of M&A strategy since IPO

Continued positive momentum carried into 2022, with strong Partner-firm fundraising activity ahead of previous guidance

Delivering on Our Strategy

Overview of Petershill Partners

Operated by Goldman Sachs Asset Management, under a fully independent Board

Petershill Partners Plc

Operated by Goldman Sachs Asset Management

Who we are

a diversified publicly listed global alternatives investment group that generates revenues across leading, predominately private capital independent Partner-firms

What we do

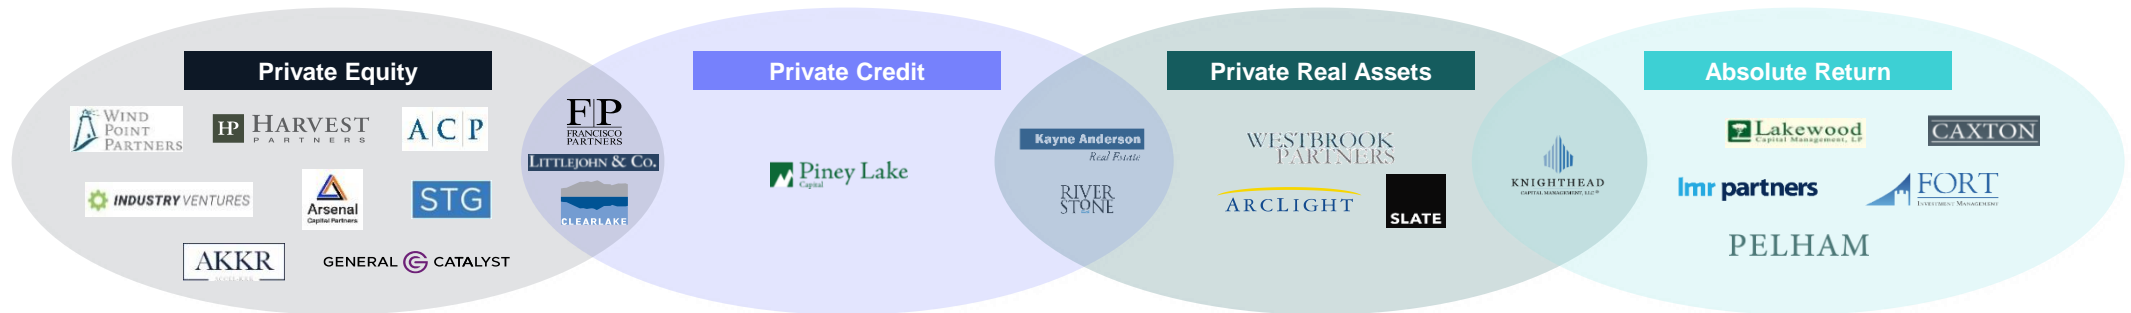

generate recurring management fee, performance fee and investment income from the substantial assets under management of our Partner-firms

How we do it

partnering through direct interests in independent Partner-firms

leveraging value-add resources of Goldman Sachs

Today

Tomorrow

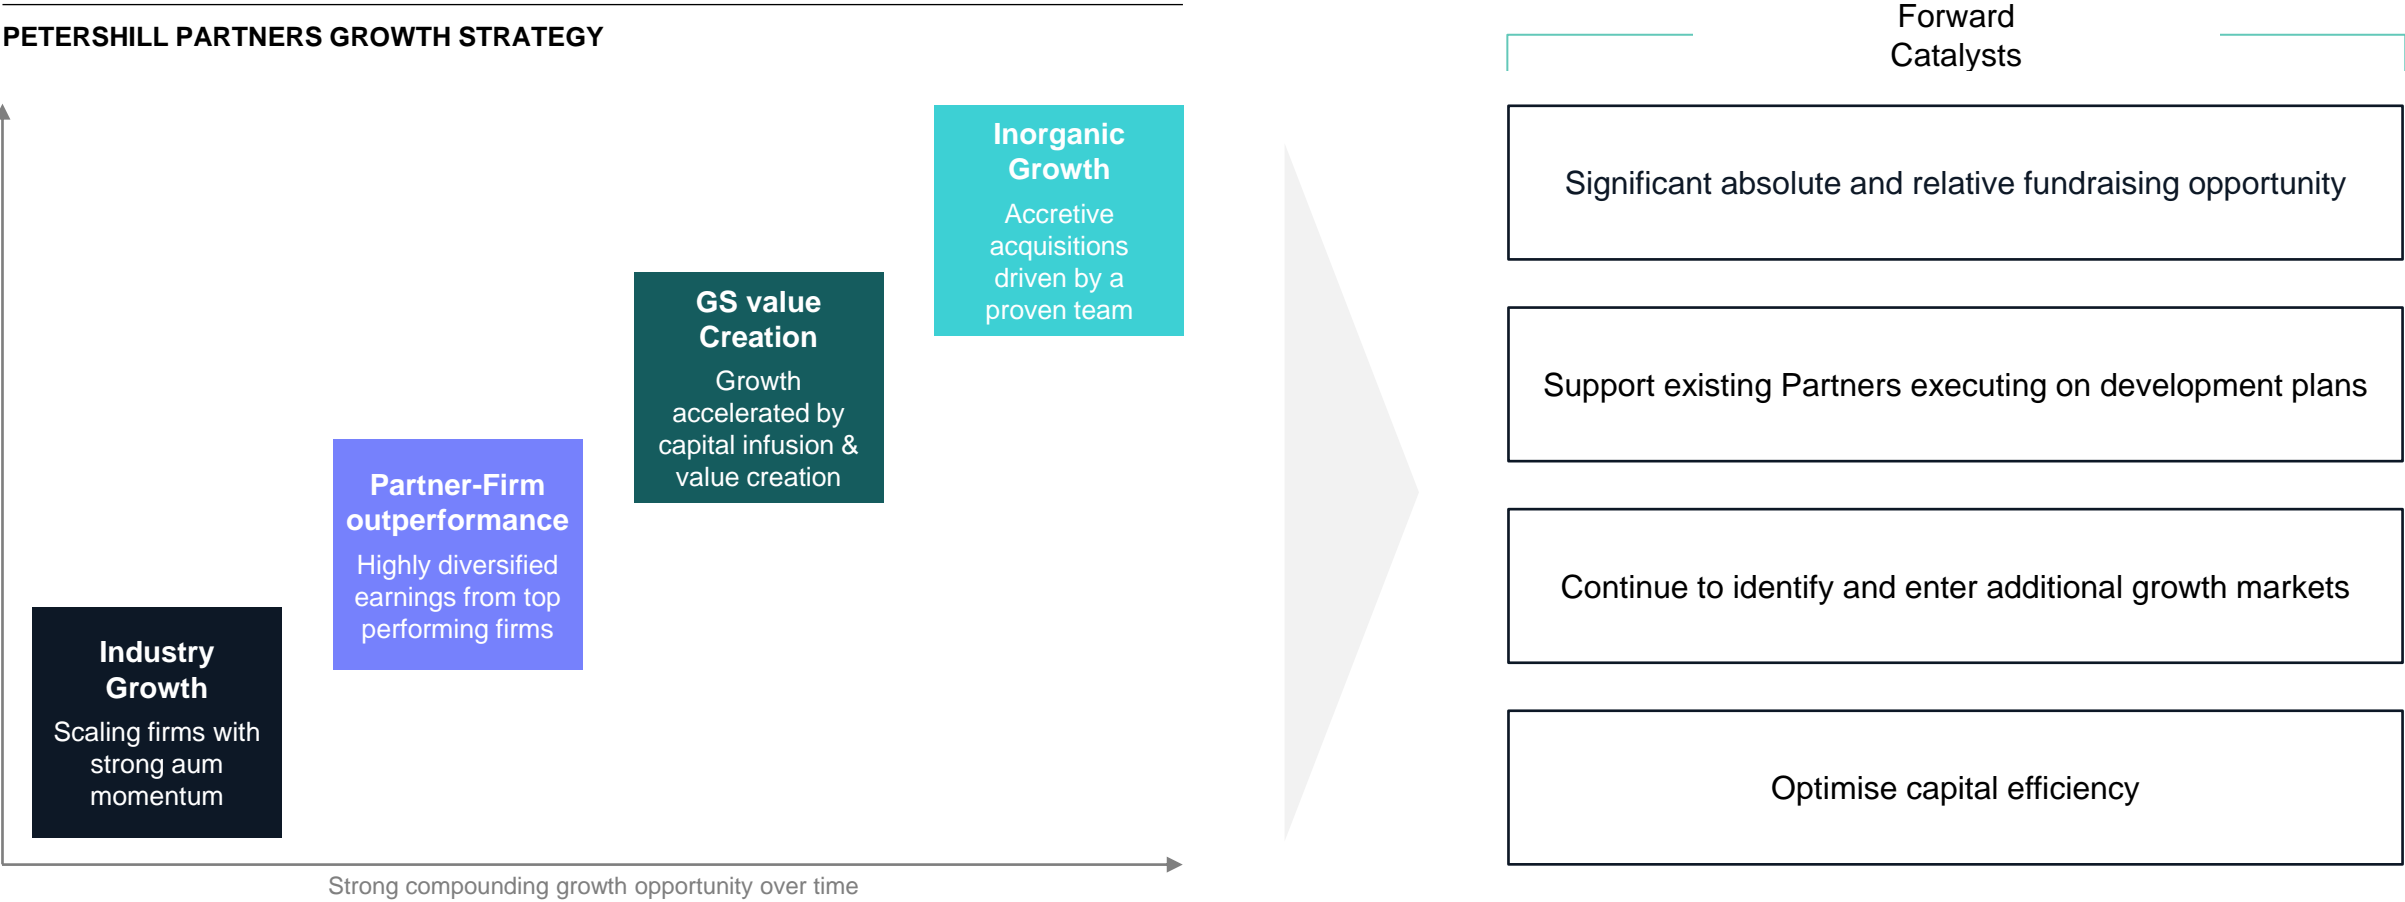

further development driven by organic growth and strong acquisition pipeline with a focus on private markets

Petershill Partners' earnings model consists of three long-term and stable income streams generated by our Partner-Firms

For illustrative purposes only and not representative of the actual number of Partner-firms.

Our organic Partner-firm growth prospects are complemented by continued inorganic growth opportunities

Strong progress against our goals

Delivery in 1H22 in-line with guidance, with an upgrade in AuM growth projections

	FY 2022 Guidance	1H 2022 Progress		FY 2022 Updated Guidance
Organic growth¹	\$40-45bn organic gross aggregate fee paying AUM raise – medium-term growth above the alternatives industry	✓ \$36bn organic gross aggregate fee paying AUM raise		c.\$50bn organic gross aggregate fee paying AUM raise – medium-term growth above the alternatives industry
Acquisitions	\$100-300m across 3-6 transactions	None in 1H – \$100m across 1 transaction in Q3		Unchanged
Dividends	Progressive dividend policy	✓ \$40m interim dividend		Unchanged
Company margin	85-90% adjusted EBIT margin excluding exceptionals	✓ 90% adjusted EBIT margin excluding exceptionals		Unchanged

We are delivering on the active drivers of our growth

Our active GP Services engagement and targeted acquisitions drive organic and inorganic growth

**Continue to identify and enter
attractive growth markets
through acquisitions**

3

**Drive capital efficiency and
total shareholder returns**

Broaden market understanding of the business

Petershill Partners was built to be resilient in different market conditions

2022 has been a more nuanced fundraising and operating environment, demonstrating the importance of our differentiated model and core strengths

INFLATION EXPECTED TO NORMALISE IN 2023-24 (% CHANGE, YOY)¹

PRIVATE MARKETS FUNDRAISING CONTINUES AMID HIGHER UNCERTAINTY²

PRIVATE MARKETS INVESTING CONTINUES AMID HIGHER UNCERTAINTY²

PRIVATE CAPITAL RETURNS LESS IMPACTED BY RISING RATE ENVIRONMENTS, 2010-21³

We have built our business to be resilient in different market conditions

2022 has been a more nuanced fundraising and operating environment

CHALLENGES

Nuanced Fundraising

Compressed fundraising environment, rapid raises with slower realisations means LPs are selective

Interest Rates

Rising interest rate environment

Inflation

Inflation impact on growth, profits

Recession risk

Potential GDP decline in western economies

SECTOR MITIGANTS

- Overall allocations to Private Alternatives are increasing

- Credit market over past decade has shifted from banks to private credit, to 'cov-lite' model, mitigating default rate on leveraged loans
- Demonstrated prior sector growth in 2016-19 interest hike period

- Real asset portfolios can perform well in inflationary environments
- Ability to hold assets to duration in order to achieve return targets

- Private market firms able to restructure businesses through active control, and can pick entry/exit timing
- Performance fees sometimes delayed as asset sales put on hold, but can still be realised when markets recover

PHP DIFFERENTIATION

- Demonstrated strong fundraising activity in 1H 2022
- Strongest private capital firms have pricing power and can distinguish themselves
- Largest fund is ~5% of AuM – no make or break raises or margin sensitivity

- Business driven by long-term lockup FRE centric revenue model
- Exposure across credit and liquid alts

- Real asset earnings footprint at 27% of Aggregate Partner AuM
- 91% of AuM in North America, with lower inflation outlook
- Highly profitable business model with limited fixed costs

- 91% of AuM in North America, with more limited inflation outlook
- Risk management through diversified footprint of exposures

We have been delivering on significant 2022 asset raising potential

2022E Partner-firm AUM raises are expected to add to the base for management fee income and future growth

Carried interest linked to
performance of shares

As of 30 June, 2022, approximately 75% of Petershill Partners shares are held by Goldman Sachs Asset Management's (GSAM's) long-dated private funds and are subject to certain lock-up provisions, which apply for up to 18 months* post Admission to the London Stock Exchange with no distribution to individual investors. This means that even after the expiry of the lock-up, GSAM is the manager of these shares and exercises discretion over how and when they could be sold in future, on behalf of the investors in those funds. GSAM expects to reduce its holdings to <25% of the Company over the medium term, but under US bank holding regulations, it has until September 2026 (being the fifth anniversary of the listing) at the latest to do so.

1H 2022 NOTES

Presenting the financial information on a non IFRS basis, excluding the impact of the assets, liabilities, income and finance cost for which the Group does not have the exposure to, aids shareholders in assessing their investment in the Group. This use of the non IFRS basis is consistent with how performance is reviewed by the Board, the Operator and other stakeholders.

- ① Includes a one time charge of \$21m related to the extinguishment of the \$350m of long term debt.
- ② Under IFRS, the group is required to consolidate certain entities relating to the \$350m of debt that it does not wholly own. This consolidation results in reflecting certain assets, liabilities, income and finance cost in the financial statements that the shareholders do not have exposure to.

IFRS loss for the period after tax	(358.8)

Totals may not add due to rounding.

How the Model Works

How does a Partner-Firm generate cash flow?¹

Acquisitions of Partner-Firms provides access to distinct cash flow streams

PARTNER FRE

- Partner-Firm's operating income associated with managing the business
- expenses include employee compensation and standard operating expenses of the firm, subject to expense protection

PARTNER REALISED PERFORMANCE REVENUES

- performance based fees earned on fund's profits
- structured as fixed revenue share, i.e. no expenses against carried interest
- Absolute Return typically generates performance fees subject to high watermark

PARTNER REALISED INVESTMENT INCOME

- returns associated with GP commitments invested in the fund, typically ~2% of the fund size, of which PHP contributes its minority share²
- represents "working capital" and self-funding

illustrative FRE transaction level cash flows

illustrative PRE transaction level cash flows

How do Partner-Firm management fees work?¹

Management fees are contractually agreed for each fund's life

- A management fees are **recurring** in nature, as they extend through the fund's life
- B typically charged on committed AuM during the fund's investment period, with both fee and fee base **contractually fixed**
- C post the investment period (i.e. harvesting period), management fees step down and the fee base shifts to invested capital
- D typically, successor funds are established 3-4 years into the investment period

ILLUSTRATIVE FUND AUM

How do Partner-Firm performance fees work?¹

Carried interest is a performance-based fee generated by Partner-Firms

PERFORMANCE FEE RECOGNITION

- Performance fees are recognised on a realised basis
- Fees are typically recognised once assets are sold in the fund's realisation period, which is typically 5+ years into the fund's life²

FACTORS AFFECTING CARRIED INTEREST

- Waterfall type (American, European)
- Waterfall structure (catch-up, etc.)
- Preferred return, i.e. minimum threshold return that LPs must receive
- Partner-Firm investment performance
- Percentage of total fund profits

ILLUSTRATIVE CARRIED INTEREST WATERFALL

LONG-TERM CARRY DRIVERS

illustrative Partner-Firm target net returns

Private Equity
c.2-3x

Private Credit
c.1.4-2.0x

Private Real Assets
c.1.4-2.0x

Absolute Return
c.6-10%

How does the investment income and GP commit work?¹

Petershill generates net positive cash flows from its GP commitments

GP commit represents working capital and generates net positive cash flow

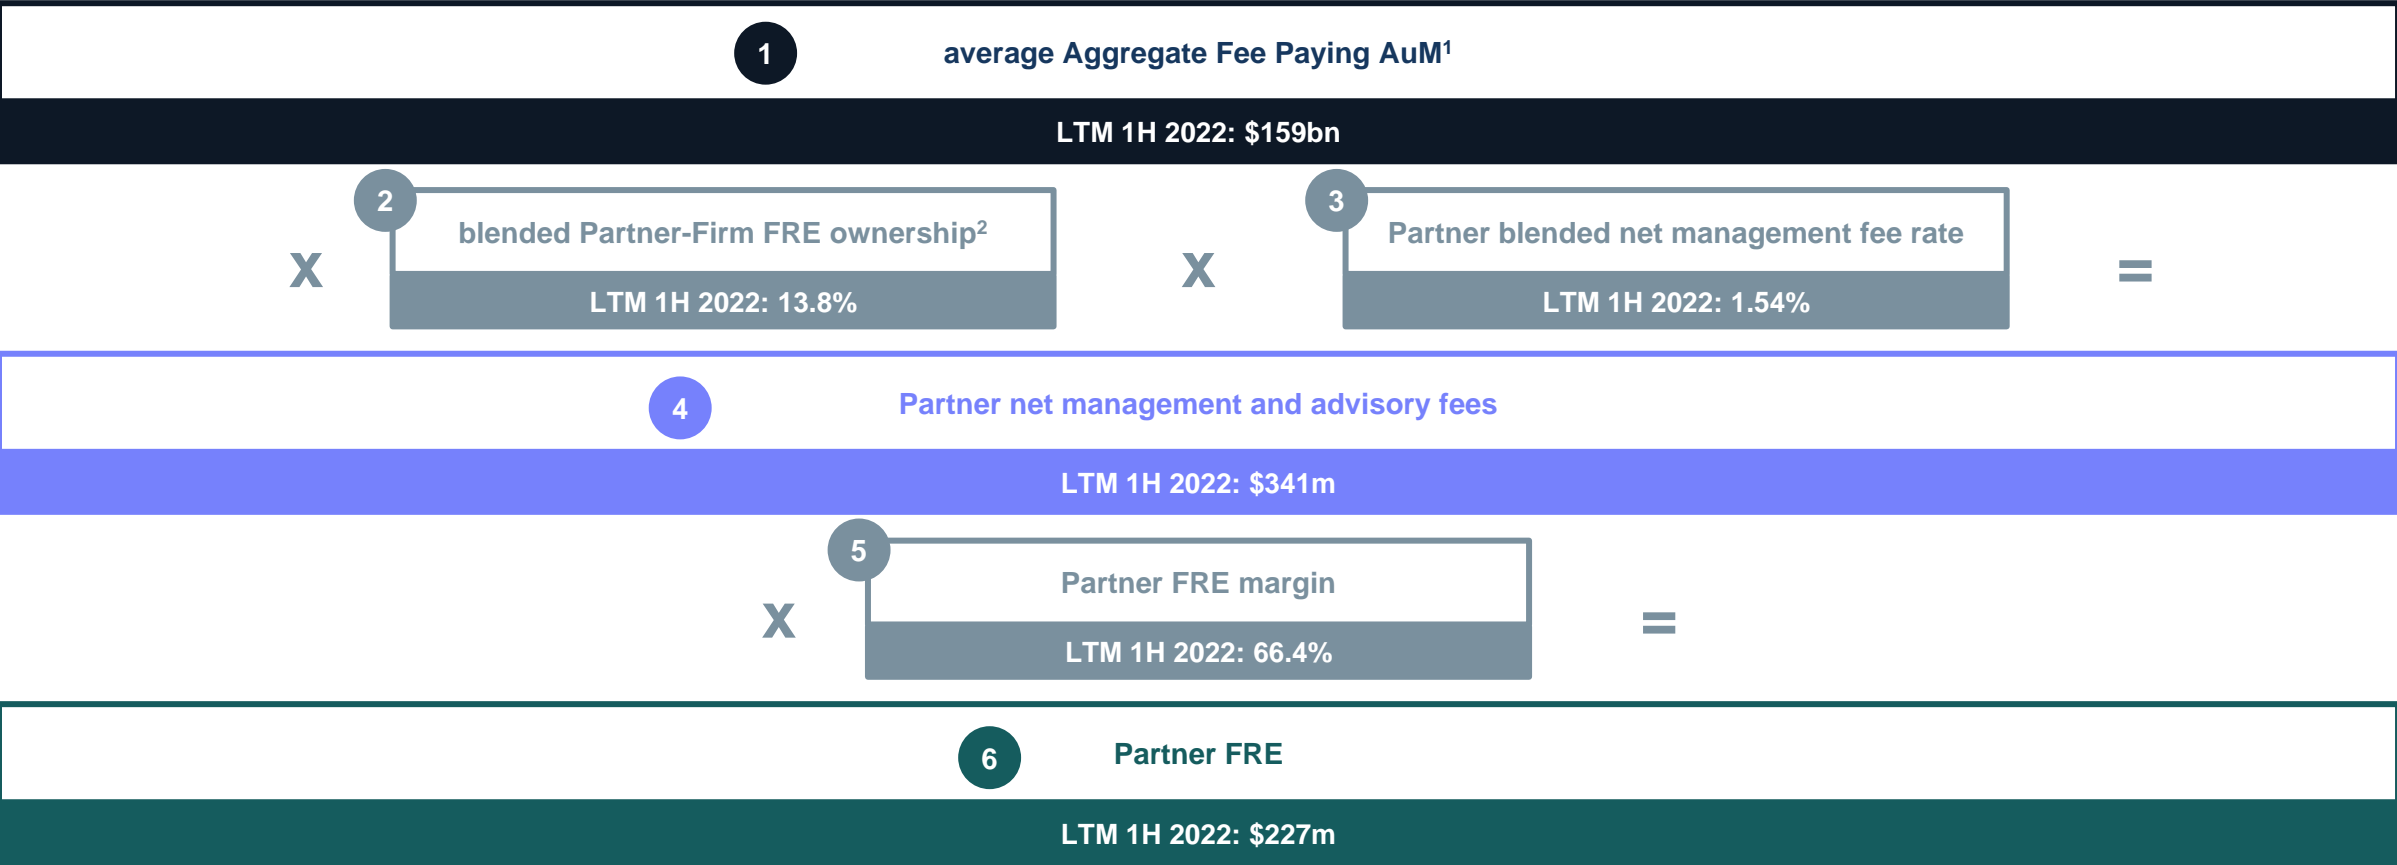

- A** GP commitment marked to market each year
- B** A portion of the annual balance sheet returns may be realised income received in cash. This represents Petershill Partners revenue
- C** As the firm grows, additional capital calls for either an existing or newly establish fund may be required
- D** For Petershill Partners, capital calls are self-financing given they are exceeded by cash distributions

ILLUSTRATIVE GP COMMIT BALANCE SHEET

the number of GP commitments increases inflows/outflows, so the net cash outflow would be limited given the ability to net balance sheet cash flows from different Partner-Firms

Glossary of Terms

Glossary

Alternative Performance Measures

Metric	Definition
Acquisitions	The Company's strategy is to combine organic growth of existing Partner-firms with acquisitions of additional Partner-firm stakes. 2022 guidance for acquisitions is \$100-300m across 3-6 transactions.
Adjusted EBIT	Adjusted EBIT is an Alternative Performance Metric and a key measure of profitability. It is defined as the sum of revenues including other income and expenses before net finance result and before income taxes
Admission	The admission of the Company's ordinary shares to the premium listing segment of the Official List of the FCA and to trading on London Stock Exchange plc's main market for listed securities on 1 October 2021
Aggregate Partner-firm AuM	Aggregate Partner-firm AuM is defined as the sum of (a) the net asset value of the Partner-firms' underlying funds and investment vehicles, and in most cases includes co-investment vehicles, GP commitments and other non-fee paying investment vehicles and (b) uncalled commitments from these entities, as reported by the Partner-firms to the Operator from time to time and aggregated by the Operator without material adjustment. This is an aggregated figure across all Partner-firms and includes Partner-firm AuM outside of the Company's ownership interest in the Partner-firms. The Operator and the Directors consider Aggregate Partner-firm AuM to be a meaningful measure of the size, scope and composition of the Partner-firms, as well as of their capital raising activities. The Operator uses Aggregate Partner-firm AuM to inform operating, budgeting and re-investment decisions.
Aggregate Fee-paying AuM	Aggregate Fee-paying AuM is defined as the portion of Aggregate Partner-firm AuM for which Partner-firms are entitled to receive management fees, as reported by the Partner-firms to the Operator. The principal difference between Aggregate FP AuM and Aggregate Partner-firm AuM is that Aggregate FP AuM typically excludes co-investment on which Partner-firms generally do not charge fees and, to a lesser extent, fund commitments in Partner-firm funds (i) on which fees are only earned on investment, rather than from the point of commitment and (ii) where capital has been raised but fees have not yet been activated. This may also include legacy assets where fees are no longer being charged. The Operator and the Directors consider Aggregate Fee-paying AuM to be a meaningful measure of the Partner-firms' capital base upon which they earn management fees and use the measure in assessing the management fee-related performance of the Partner-firms and to inform operating, budgeting and re-investment decisions.
Aggregate Performance Fee Eligible Partner-firm AuM	The amount of Aggregate Partner-firm AuM that is eligible for carried interest.
AuM and associated data	The data presented in this document for the following key operating metrics reflects AuM data reported to the Operator on a three-month lag. This three-month data lag is due to the timing of the financial information received by the Operator from the Partner-firms, which generally require at least 90 days following each period end to present final financial information to the Operator. The key operating metrics reflected on a three-month lag are: Aggregate Partner-firm AuM, Aggregate FP Partner-firm AuM, Average Aggregate FP Partner-firm AuM, Aggregate Performance Fee Eligible Partner-firm AuM, Average Aggregate Performance Fee Eligible Partner-firm AuM, Partner Blended Net Management Fee Rate, Implied Blended Partner-firm FRE Ownership, Investment Capital. In respect of Investment Capital, the data may be adjusted for any known valuation impacts following the reporting date of the information received from the Partner-firms.
Book Value	Total Shareholders' equity

Glossary

Alternative Performance Measures

Metric	Definition
Book value per share	Total Shareholders' equity divided by Ordinary Shares Outstanding at the end of the period
Implied Blended Partner-firm FRE Ownership, Including New Acquisitions	<p>The weighted average of Petershill's ownership stake in the Partner-firms' management fee-related earnings and is calculated based on the contribution of Aggregate FP AuM from Partner-firms at the end of the period. It will therefore be expected to change to some degree from period to period based on the contribution to Aggregate Fee-paying AuM of each Partner-firm at the end of the period, even if the actual ownership of each underlying Partner-firm does not change.</p>
Implied Blended Partner-firm FRE Ownership, Excluding New Acquisitions	<p>Implied Blended Partner-firm FRE Ownership is defined as the weighted average of the Company's ownership stake in the Partner-firms' management fee-related earnings and is calculated based on the contribution of average Aggregate FP AuM from Partner-firms in each period. It will therefore be expected to change to some degree from period to period based on the contribution to average Aggregate FP AuM of each Partner-firm, even if the actual ownership of each underlying Partner-firm does not change. Excludes new acquisitions where Petershill has not yet started to receive or have only received partial period amounts of Partner Net Management and Advisory Fees. The Operator and the Directors consider Implied Blended Partner-firm FRE Ownership to be a meaningful measure of the composition of the Company's investments.</p>
Average Implied Blended Partner-firm FRE Ownership at 30-Jun-2021 and 30-Jun-2022, Excluding New Acquisitions	<p>The average of the weighted average of Petershill's ownership stake in the Partner-firms' management fee-related earnings at the beginning and end of the period and is calculated based on Petershill's ownership stake in the Partner-firms' management fee-related and the contribution of Aggregate FP AuM from Partner-firms, both at the beginning and the end of the period. It will therefore be expected to change to some degree from period to period based on the contribution to Aggregate Fee-paying AuM of each Partner-firm at the beginning and the end of the period, even if the actual ownership of each underlying Partner-firm does not change. Excludes new acquisitions where Petershill has not yet started to receive or have only received partial period amounts of Partner Net Management and Advisory Fees.</p>
Investment Capital	<p>Investment Capital is defined as the sum of the reported value of the balance sheet investments from the Partner-firms. The Operator and the Directors consider Investment Capital to be a meaningful measure of the performance of the Partner-firms' balance sheet investments and potential future Partner Realised Investment Income. The Operator therefore uses Investment Capital to assess future expected Partner Realised Investment Income and inform operating, budgeting and re-investment decisions.</p>
Ownership weighted AuM	Ownership weighted AUM represents Petershill's ownership stake of each Partner-firms' Aggregate Partner-firm AuM.
Ownership weighted Fee-paying AuM	Ownership weighted Fee-paying AUM represents on Petershill's ownership stake of each Partner-firms' Aggregate Fee-paying AuM.
Partner Blended Net Management Fee Rate	<p>Partner Blended Net Management Fee Rate is defined as Partner Net Management and Advisory Fees for the period divided by the average Aggregate Fee-paying AuM weighted for the Company's ownership interests in each Partner-firm. The average Aggregate Fee-paying AuM is calculated as the mean of the Aggregate Fee-paying AuM at the start and the end of the reporting period. Excludes new acquisitions where the Company has not yet started to receive or have only received partial period amounts of Partner Net Management and Advisory Fees. The Operator and the Directors consider Partner Blended Net Management Fee Rate to be a key metric in assessing the Company's overall management fee-related performance.</p>

Glossary

Alternative Performance Measures

Metric	Definition
Partner Distributable Earnings and Partner Distributable Earnings Margin	<p>Partner Distributable Earnings is defined as the sum of Partner FRE, Partner Realised Performance Revenues and Partner Realised Investment Income. Partner Distributable Earnings Margin is defined as Partner Distributable Earnings divided by the sum of Partner Net Management and Advisory Fees, Partner Realised Performance Revenues and Partner Realised Investment Income. The Operator and the Directors consider Partner Distributable Earnings and Partner Distributable Earnings Margin to be meaningful measures of the overall performance of the Partner-firms and key performance indicators of the Company's total income from investments in management companies. The Operator uses this metric to analyse and test dividends received from the Partner-firms, as well as to inform operating, budgeting and re-investment decisions. These measures reflect any contractual margin protections or revenue share interests that the Company may have with the Partner-firms, which means that the Partner Distributable Earnings Margin may differ from the margins achieved by other shareholders or partners of the Partner-firms.</p>
Partner Fee-Related Earnings (FRE) and Partner FRE Margin	<p>Partner FRE is defined as Partner Net Management and Advisory Fees, less the Partner-firms' operating expenses and fixed and bonus compensation (but not performance fee-related expenses) allocable to the Company's share of Partner Net Management and Advisory Fees, as reported by the Partner-firms to the Operator, and subject to applicable contractual margin protections in respect of certain Partner-firms. Partner FRE Margin is defined as Partner FRE divided by Partner Net Management and Advisory Fees. The Operator and the Directors consider Partner FRE and Partner FRE Margin to be meaningful measures of the management fee-related earnings of the Partner-firms and key performance indicators of the Company's income from investments in management companies derived from management fee income. The Operator uses this metric to analyse and test dividends received from the Partner-firms, as well as to inform operating, budgeting and re-investment decisions.</p>
Partner FRE concentration by Largest Fund	<p>Partner FRE concentration by largest fund is calculated as estimated FRE from the largest fund divided by total FRE</p>
Partner-firms	<p>Partner-firms is defined as the alternative asset managers in which Petershill Partners own non control ownership positions</p>
Partner-firm Funds	<p>Partner-firm funds is defined as the Company's exposure to the number of underlying Partner-firm funds</p>
Partner Net Management and Advisory Fees	<p>Partner Net Management and Advisory Fees is defined as the Company's aggregate proportionate share of the Partner-firms' net management fees (as reported by the Partner-firms to the Operator), including monitoring and advisory fees, payable by the Partner-firms' funds to their respective Partner-firms for the provision of investment management and advisory services. The Operator and the Directors consider Partner Net Management and Advisory Fees to be a meaningful measure of the management fee-related performance of the Partner-firms, and the Operator uses this metric to analyse and test income received from the Partner-firms and to inform operating, budgeting and re-investment decisions.</p>
Partner Private Markets Accrued Carried Interest	<p>Partner Private Markets Accrued Carried Interest is defined as the Company's proportionate share of the Partner-firms' balance sheet accrued carry (as reported by the Partner-firms to the Operator) and represents the Company's proportionate share of the accumulated balance of unrealised profits from the Partner-firms' funds. The Operator and the Company consider Partner Accrued Carried Interest to be a meaningful measure of the performance of the private markets Partner-firms and potential future private markets Partner Realised Performance Revenues. Absolute return performance fees are not accrued and are instead realised annually. The Operator uses Partner Accrued Carried Interest to assess future expected carried interest payments and inform operating, budgeting and re-investment decisions. This key operating metric reflects data reported to the Operator on a three-month lag.</p>

Glossary

Alternative Performance Measures

Metric	Definition
Partner Realised Investment Income	Partner Realised Investment Income is defined as the Company's aggregate proportionate share of Partner-firm earnings resulting from the realised gains and losses or any distributed income from the investments held on Partner-firms' balance sheets, as reported by the Partner-firms to the Operator. Partner Realised Investment Income is also realised by the Company through a limited number of direct stakes in certain Partner-firms' funds. Realised Investment Income includes income that has been realised but not yet paid, as well as amounts that are realised and either fully or partially reinvested. The Company's share of the Partner-firms' investment and balance sheet income will be lower than its share of the Partner-firms' management fee-related earnings because the Company's ownership stake in the Partner-firms' investment and balance sheet income is lower than its ownership stake in the Partner-firms' management fee-related earnings. The Operator and the Directors consider Partner Realised Investment Income to be a meaningful measure of the investment performance of certain assets held by the Partner-firms and key performance indicator of the Company's income from investments in management companies derived from investment income. The Operator uses this metric to analyse and test dividends received from the Partner-firms, as well as to inform operating, budgeting and re-investment decisions.
Partner Realised Performance Revenues	Partner Realised Performance Revenues is defined as the Company's aggregate proportionate share of the Partner-firms' realised carried interest allocations and incentive fees payable by the Partner-firms' funds to their respective Partner-firms, less any realised performance fee-related expenses of the Partner-firms allocable to the Company's share of performance fee-related revenues, as reported by the Partner-firms to the Operator. The Company's share of the Partner-firms' performance fee-related earnings will be lower than its share of the Partner-firms' management fee-related earnings because the Company's ownership stake in the Partner-firms' performance fee-related earnings is lower than its ownership stake in the Partner-firms' management fee-related earnings. The Operator and the Directors consider Partner Realised Performance Revenues to be a meaningful measure of the performance fee-related earnings of the Partner-firms and key performance indicator of the Company's income from investments in management companies derived from performance fee income. The Operator uses this metric to analyse and test dividends received from the Partner-firms, as well as to inform operating, budgeting and re-investment decisions.
Partner Revenues	Partner Revenues is defined as the sum of Partner Net Management and Advisory Fees, Partner Realised Performance Revenues and Partner Realised Investment Income. The Operator and the Directors consider Partner Revenues to be a meaningful measure of the overall performance of the Partner-firms. The Operator uses this metric to inform operating, budgeting and re-investment decisions.
Petershill Funds	The Petershill Funds refers to the following entities: - Petershill II L.P. and Petershill II Offshore L.P., Petershill Private Equity L.P., Petershill Private Equity Offshore L.P., Vintage VII L.P. and related entities and certain co-investment vehicles.
Weighted Average Capital Duration	Weighted Average Capital Duration is a key measure of the long term, locked-up capital of Aggregate Fee-paying Partner-firm AuM. It is defined as the average life of the underlying Partner-firm funds weighted based on Fee-Paying AuM.

	2	Includes Petershill flagship vehicles, Petershill I, Petershill II, Petershill III and Petershill IV, as at March 31, 2022. Petershill I, Petershill II, Petershill III and Petershill IV are closed to new investors. Value creation represents the total value less total funded cost at the portfolio level. Capital invested represents funded cost at the portfolio level.
Page 30	1	¢ refers to USD cents.
Page 31	1	Represents the significant unobservable inputs used in the fair value measurement categorised within Level 3 of the fair value hierarchy by valuation technique as at 30-Jun-2022. The fair value of any one instrument is determined using multiple valuation techniques. This includes IPO transaction multiple, weighted average of market comparable and discounted cash flows that are then weighted together to determine fair value. Therefore, the level 3 balance encompasses both of these techniques.
	2	The range consists of multiples on management fee related earnings ("FRE") and may represent historical or forward looking multiples.
	3	The range consists of multiples on performance related earnings ("PRE") and may represent historical or forward looking multiples.
	4	Gross fair value of investments are shown on an APM basis. Gross fair value as at 31-December-2021 excludes the calibrated price of recent investments made during 4Q 2021 of \$430.1m. These investments are now reflected in the private markets values for 1H 2022.

Forward-Looking Statements

This presentation may contain forward-looking statements that involve substantial risks and uncertainties. You can identify these statements by the use of forward-looking terminology such as “may,” “will,” “should,” “expect,” “anticipate,” “project,” “target,” “estimate,” “intend,” “continue,” or “believe” or the negatives thereof or other variations thereon or comparable terminology. You should read statements that contain these words carefully because they discuss our plans, strategies, prospects and expectations concerning the business, operating results, financial condition and other similar matters. These statements represent the Company’s belief regarding future events that, by their nature, are uncertain and outside of the Company’s control. There are likely to be events in the future, however, that we are not able to predict accurately or control. Any forward-looking statement made by us in this document is based upon information known to the Company on the date of this document and speaks only as of such date. Accordingly, no assurance can be given that any particular expectation will be met and readers are cautioned not to place undue reliance on forward looking statements. Additionally, forward looking statements regarding past trends or activities should not be taken as a representation that such trends or activities will continue in the future. Forward-looking statements speak only as at the date of this document and, other than in accordance with its legal or regulatory obligations, the Company expressly disclaims any obligations or undertaking to release any update of, or revisions to, any forward-looking statements in this document, whether as a result of new information, future events or otherwise. No statement in this document is intended to be a profit forecast. As a result, you are cautioned not to place any undue reliance on such forward-looking statements.

Past performance does not guarantee future results, which may vary. The value of investments and the income derived from investments will fluctuate and can go down as well as up. A loss of principal may occur.

Confidentiality
